

Bible club Management software Plans

Features of the Software

1-InitialPlanning

The Bible club MS will be a mobile and desktop app that will be able to help manage the different information about the different Bible clubs and also to handle and manage the CHF activities as a whole. The different functions of the software in a brief way will be to:

The Initial Functions

- Enable Viewing, Searching, Adding, Editing and Deleting of almost anything like BBCs, levels, Leaders, members, Events, Meetings, Presence, Prayer Chain.
- Store details information about each Bible club with its different levels and members through registration.
- Help National CHF leaders like Daddy Loni and Daddy Crys to have access to reports about each Bible club activity in real time without necessarily waiting for the reports to be sent on whatsapp or more.
- Store information about the different professionals.
- Helps in organizing big events like the Summit, Congress in order to know those that will attend and organize it well.
- Store information and reports on the intercession in the different Bible clubs like prayer meeting.
- Provide a good way of storing the detail on class meetings, general assemblies, welcome party and more..
- Keep track of faithful members and help detect the unfaithful for immediate follow up
- Help in giving details information on each Bible club like the number of members of a Bible club, number of faithful members, How far the objectives of a particular Bible club is attained, the different leaders in each Bible club and more....
- Enable accounts of departmental meetings like Act of Christ, Divine Shakers, Charis Ministers, Academics, Might Men of Valor, Ladies.

The upcoming versions

- Record information about evangelism and discipleship of the different Bible club. This means the software will be able to store reports on the evangelism programs done like the number of people preached, those who preached, the disciples won and more....
- Help in storing detail information about discipleship meaning information about the different disciple makers in different Bible clubs with their disciples
- Helps in publishing special information on things like like BBC Daily Verse, National Congress, Summit, Happy birth days and more..
- Help perform Financial management of each Bible club.
- Help generate weekly, monthly, yearly objectives, plans accounts and report of each Bible club and of each class automatically without necessarily typing or working on word or excel. This report will also help when the reset of a Bible club is done.
- Enable Reset of a Bible club in the beginning of the academic year of the Bible club of a specified school.

- Enable each disciple to perform their daily,monthly plans and accounts such that their disciple makers can have access to some of them inorder to know better how to teach each of his disciples.
- Many more things will be added to it as the development progresses

2-Overview Planning

- The mobile app should be downloaded from App store/Google playstore and used after sign in in one's account.(The Software can also be hoisted in the BBC website online where each person have to create their BBC user account entering their name, password and more before downloading).

- Enable Viewing,Searching, Adding, Editing and Deleting of almost anything like BBCs,levels, Leaders, members, Events, Meetings, Presence, Prayer Chain.

- Enable registration of the national CHF leaders Board of Trustees (BOT) President, Vice President for managing (storage, viewing, editing, deleting) the information of the CHF at a national level. The CHF president/BOT should first to create account and access the software and assign the other CHF national leaders.

- Once any person enter his information he sends a request to be registered as member. The CHF leaders/ BBC leaders or any required leader are the ones to set the person as a member of a particular Bible club of a particular class or a member of the professional branch.

- The leader will add a BBC member or professional from the list of requests. So when entering information, each one should precise if he is a member or professional.

- Email is to be used to sign in to the application

- The software should keep track of faithfulness, participation level(surely in percentage) of members within their class activities or their Bible club activities and even in joint BBC activities or even whole CHF activities.

- Software should be able to remove a member automatically from the software after some long time(a fixed time) of absences.

- Other departments like Evangelism and Discipleship , Charis and more will be added in the upcoming versions of the software. This 1st version is focused in the management (create/Add, edit,delete,View) of BBCs,levels, Leaders, members, Events, Meetings, Presence, Prayer chain.

- There should be a varying level of access, once each person have downloaded the software, He must sign in based on his ID and Password or Email account. If the person is not yet a member of any Bibleclub and class(not yet inserted by a leader), the software blocks the user from any data of the Bibleclub. If the person is a member of a class of a particular Bibleclub, the leader should add the person as member of that class in a bible club or as a member in the professional branch depending on how he registered and the software will enable him to access the data based on his position(whether simple member, BBC president, class president, intercessor leader and so on....). So there will be a varying level of access.

The roles are defined down.

- The CHF BOT/President/ CHF Vice Presidents/General Secretary:

- Add,Delete Assign the different national CHF leaders.
- Create, Edit,Delete a BibleClub Record by assigning its information name, president, the particular Bible club leaders and more.
- Add,Remove Professionals.
- Manage(Add,Remove) Mentors and assign their roles to manage some Bible clubs given by the leaders.
- Edit functions of a mentor.
- Organise and manage(Create,Edit,Delete) joint classmeetings/DiscipleshipMeetings, Prayer Meetings,Retreat, or any Assembly Meeting(Conference, Welcome party....)
- Organise and manage(Create,Edit,Delete) Large Events(Congress, Summit, National/International Conferences, ...)
- Navigate and Manage any Bible club and professionals
- Be able to do everything that the below leaders should do.

- A BBC President/Vice President/Secretary General:

- Edit some info about his Bible club but just allowed to view some information about other Bible clubs.
- Assign internal Bible club leaders like class leaders, department leaders,Vice president of only his Bible club.
- Give out objectives of the Bible club for the year.(Surely in number of disciples to be).
- Create,Edit,Delete any meetings most especially the leader's meeting,General Assembly,General Retreat, of only his Bible club.
- Create,Edit,Delete the different levels/classes of his Bible club, add information of each level, assign leaders of each level.
- Cannot delete a Bibleclub, cannot change president, vice president, secretary.
- Be able to do anything that the below leaders can do.

- An Intercessor Leader:

- Organise,manage Prayer meetings/Retreats((Intercessor Meetings for other versions) inserting the presence list.
- Add,Remove intercessors based on some criteria.
- Handle, manage(Create,Edit,Delete) Prayer chain, chain of intercessors praying.
- Be able to do what a simple member can do.

- Mentor:(They are assigned to supervize some BBCs).

- Must come from the list of professionals

- Organize and Manage(Create,Edit, Delete) joint classmeetings/DiscipleshipMeetings, Prayer Meetings,Retreat, or any Assembly Meeting(Conference,Congress,Feast,Bankets,Concerts, Summit) only for the Bible clubs assigned to manage.
- View all the internal work of only the Bible clubs he is required to supervise.
- Be able to do what a simple member can do.

- BBC Daily Verse leaders:

- Publish BBC Daily Verses as info for different Bible clubs.

- Financial Leader:

- Should perform the creation of specific contribution and should store info on the money stored by a member or person who is not necessarily member of the Bible club.
- Being able to do what a simple member can do.

- Evangelism and Discipleship Leader:

- Should organize Evangelism programs
- Manage discipleship meeting report sent by the various disciple makers
- Add disciplemaker and assign disciples to the disciplemakers
- Being able to do what a simple member can do.

- A Class president/Class Vice leader:

- Organise, manage(add,edit,delete) Class meetings,(Class retreats,) inserting the presence list.
- Can edit some info of his class. Setting the goals of the class.
- Be able to do everything that the below leaders can do.
- Add,delete a member inside his/her class. Cannot Edit member Info.
- Can manage only class meetings/retreats of his own class.
- Be able to do what a simple member can do.

- An Intercessor:

- All leaders are intercessors
- View Intercessory work.
- Being able to record reports of intercession/ prayer chain organized.
- Being able to do what a simple member can do.

- Disciple maker:

- Has and manage disciples.
- Report on the discipleship meeting done with disciples.
- Being able to do what a simple member can do.

- A Simple Member:

- Able to View everything in his Bible club except intercessory/Discipleship work. Only allowed to view partial information members, meetings of other BBCs.
- Delete His info or leave the Bible club.
- Edit his info
- Store evangelism accounts he does.

- Professional:

- Not added to a Bible club but to the whole Bible club
- Able to View only partial information, main infos of different BBCs.

- Delete His info or leave the Bible club.
- **User:**
 - The one who enter his info and request to be a member.
- **Visitor/Passing By:**
 - People who are just visiting and will be travelling or going.
 - Those that are rare and just came only in events like activities like welcome parties /Any Feast, General Assemblies or any big activities.
 - Depend on assembly. Does not depend on user account.
- **Other Functionalities (More details, UI display)**
 - Display participation of each member in Retreats, classmeetings, General Assembly, Leader's Meeting and other Assembly Meetings.
- Evangelism programs are to be organized within a Bibleclub or for the whole CHF concerning some or all Bibleclubs. These evangelism programs consist of some days of preaching the gospel and accounts given.
- Reports about discipleship meetings with the disciples should be recorded.
- A list of Beleivers must be recorded in a meeting and the date of the meeting should be used to modify the "DateBeleived" property of those who believed.
- If someone is a professional or a member of a Bible club but not in another Bible club, he is just allowed to view only partial information of other Bible clubs.
- Data will be stored offline so there will be an online and local database. Data stored locally in a person's computer or phone is data that is only accessible by that person. The online database will store all the whole data.
- The CHF BOT/President main leaders phones computers should store everything offline.
- When creating a user account either someone is a professional or member. If someone is a member the person should specify the school Bible club and level he is found , if he is professional he is to enter his profession.
- For each class there will be management of the classmeetings first. Then retreats(Prayer retreat, studies, Teaching). These are the main assemblies of a class.
- Each assembly meeting should have maximum number of photos it can send.
- The software should enable the transfer of members from a level to another. It should also enable the editing of names of a class or Bible club. This is good when a new year starts, when there is a reset of a Bible club's data.
- Helps in publishing special information on things like like BBC Daily Verse, National Congress, Summit, Happy birth days and more..
- Upcoming versions should include a restart(reset)in Bible clubs accounts when a new academic year start for each Bible club. Saving past yearly backups for each Bibleclub.
- The software should be able to store financial accounts on specific contributions and help describe the percentage of contributions that are done based on objectives. The software should generate total finances contributed over a year.
- Evangelism and discipleship
- The software should be built to allow upcoming updates.

3- Detailed Functionalities

1- Registration/Add,View,Search, Edit, Delete

- Registration/Add,View,Search, Edit, Delete Implementation of National Leaders,Professional, Mentors, Bibleclubs,BBC President,Level,Class President,Simple Member.

2- Meetings, JointMeetings

- Meetings/Assemblies (Class meeting, Prayer Meeting, Spiritual Retreat, Welcome party, Intercession Meeting,)
- One should be able to organize any of these meetings and record them
- The organization is to plan the date and time of the meeting and the application should notify the people eligible for the meeting
- The application should notify or even alarm when the start time that is planned is reached.
- The application should notify after a first record of the accounts of a meeting.

3- Events

- Follows the structure of meetings. The event should be planned by any national leader only
- When planned, notification info should be sent to all CHF members and should enable any CHF member who wishes to participate to add himself amongst the participants.
-

4 - Participation and Faithfulness

- The participation and score is only for students and should only be presented for students
- The score of a student is incremented each time that student is present in any meeting(class meeting, prayer, intercessory , Discipleship),evangelism work.
- The score should reset at the beginning of the academic year
- Participation percentage should be:

$$P \% = \frac{\text{score}}{\text{Total number Meeting the member should attend}} \times 100$$

- Note that the Total number of meeting vary from member to member depending on the roles of the member.

Example:

- A L2 member should attend his L2 class meeting but is not obligatory for him to attend L3
- Faithfulness depends on participation. A faithful member is therefore someone that should be above a number of percentage , lets take "50%".
-

5 -Evangelism and Discipleship

- Record data about evangelism programs which contains evangelism record. An evangelism record must be found in the evangelism campaign
- Rec
